

CRITICAL CLEANING

Sontara EC® White

SONTARA® ENGINEERED CLOTH IS EXTREMELY LOW LINTING, ABSORBENT AND STRONG.

- Highly strong and durable, wet and dry, for multiple uses
- Quickly absorbs over 5× its weight in water
- Extremely low-linting, leaving surfaces exceptionally clean
- No additives that can contaminate surfaces
- Available in multiple packaging formats for convenient use

STRENGTH

ABRASION RESISTANCE

ABSORBENCY

GRIP

LOW LINT

ADVANTAGES

High strength

Tough and durable for multiple reuses. Proven to be among the strongest, wet or dry.

High absorbency

Great absorbency of water, oil and solvents - absorbs 5x its weight in water. Excellent for wipe-dry.

Virtually lint-free

Minimizes particle contamination. Leaves behind virtually no lint compared to paper.

Pure

Free of added chemicals, adhesives, and binders - safe for critical cleaning.

Solvent resistant

Compatible with MEK, isopropyl alcohol, and other solvents and cleaning agents.

Sontara EC® is our original 'engineered cloth' renowned for its high performance in demanding wiping applications.

Engineered with our proprietary Sontara® hydroentangling technology, fibers are bonded using high-pressure water jets, producing wipes that are highly absorbent, strong, and low linting without added binders, silicones or adhesives.

Sontara EC® wipes clean efficiently with fewer wipes per task, helping reduce consumption by lasting longer. Ideal for a wide range of applications including aviation, manufacturing, painting, auto and machinery repair, printing, graphic arts, and more.

PRODUCTION METHOD

- Sontara® technology
