LOW LINT

ADVANTAGES

High strength

Tough and durable for multiple reuses. Proven to be among the strongest, wet or dry.

High absorbency

Great absorbency of water, oil and solvents - absorbs 6x its weight in water.. Excellent for wipe-dry.

Virtually lint-free

Minimizes particle contamination. Leaves behind virtually no lint compared to paper.

Pure

Free of added chemicals, adhesives, and binders - safe for critical cleaning.

Solvent resistant

Compatible with MEK, isopropyl alcohol, and other solvents and cleaning agents.

Sontara EC® Light is the lighter-weight version of our original engineered cloth, designed for less demanding tasks while maintaining excellent resistance, durability, and absorbency.

Made with our proprietary Sontara® hydroentangling technology, its fibers are bonded using high-pressure water jets to create a highly absorbent, strong, and low-linting wipe - without added binders, silicones, or adhesives.

Sontara EC® Light cleans efficiently with fewer wipes per task, helping reduce consumption. Ideal for general-purpose applications in manufacturing, maintenance, painting, auto and machinery repair, printing, and more.

PRODUCTION METHOD

- Sontara® technology
