

Final Tack Cloth

- Light "tackifier"—removes dust and overspray between coats.
- Virtually no fraying or linting.
- Users report it reduces static buildup on plastic parts and other surfaces.

ADVANTAGES

Safe in Use

Complete System

Low Cost in Use

Low Lint

Fit for Use

Sontara® Surface Preparation System offers the right wiping product for every stage of the refinishing process to achieve the high quality automotive refinish you are looking for. The unique hydroentangling process from Sontara® uses thousands of high-pressure, needle-like jets of water to entangle the fibres into a Sontara® fabric that's strong and low-linting.

Reducing sources of lint or loose fibres can minimize the potential for paint defects. With Sontara®, you get great performance from start to finish.

PRODUCTION METHOD

Sontara®

RECOMENDED APPLICATIONS

- Removing light residues and overspray between coats.
- Prepping a surface in between coats.
- Application where a light tackifier is needed.

CODE	NAME	WIPE DESCRIPTION	WIPE SIZE	WIPE PACKAGING	WIPES PER CASE	CASES PER PALLET
