

CRITICAL CLEANING - CLEANROOM

Sontara® MicroPure SV

ISO-7 AND OVER

- "Super Value" solution for less sensitive and demanding environments
- Recommended for ISO 7-9¹ cleanrooms
- Free from added binders and chemicals, with a low level of extractables and ions, for high cleanliness
- High absorbency, cleaning ability and extremely low linting, perfect to clean spills in your cleanroom environment

ADVANTAGES

Increased productivity
Minimizes contamination to prevent product defects and associated yield losses.

High absorbency
Optimal combination of cellulose and polyester to absorb liquids and particulates without releasing particles.

Extremely low lint
Hydroentangled fabric without added adhesives or chemicals, with high cleanliness and purity that don't leave any particles.

Safe in use
Complete traceability and advanced packaging design to eliminate the need to cut or tear the bag in the cleanroom.

Sontara® MicroPure is our range designed to deliver the highest level of cleanliness, purity, and control in cleanroom environments.

With wipe options suitable for ISO 5-9¹ certified cleanrooms, MicroPure combines safety, efficiency, and reliability to protect your most demanding processes.

PRODUCTION METHOD

- Sontara® technology

CODE	WIPE DESCRIPTION	SIZE	PACKAGING	WIPES PER CASE	CASES PER PALLET
1000003980	White, flat	224 x 224 mm	• 500 wipes / bag • 20 bags / box	10000	9
1000003981	White, flat	305 x 305 mm	• 250 wipes / bag • 20 bags / box	5000	9
